'As I was saying, being inexperienced in fighting, I didn't know just what to do, as is the way with most new soldiers, so shoot, slash, jab, a rush and roar, a throatful of nasty sulphur smoke, possi bly a bee sting in body or limb, a fall in the leaves or dust or mud, a sense of omething one scarcely knows what, and the end has come either to the fight or fighter. I had reached the slap pretty good, seeing that I had knocked a nan or two over and hadn't been knocked over myself, and was getting into the spirit of it in fine fettle when I found myself hand to hand or musket to saber with a young lieutenant about my own shoot him off his horse, for I had somegun as a guard to keep off the fierce onslaught of his slashes.

myself. I put up the best defense I could, trying to punch him with my bayonet, but the young fellow evidently had some military training, in sword exercise at least, for he knocked my gun around pretty much as he pleased. Indeed he had such success that he was wearing me out fast, and I felt that if something didn't happen for my side very soor there would be one more bluecoat grave to dig on the morrow. He saw his advantage, too, and with a yell he came at me again, swinging that big saber of his so high and strong that it seemed to me to be the sword of Michael or of some other of those picture people I remem-bered to have seen in my books, and I made up my mind to give him one more poke with my bayonet for luck and let him have my scalp if he wanted it. But he would not give me a chance to do even this much. He banged that confounded sword around my head until I could only hold my gun up and try to save my face to identify me by after the battle was over. He rained his blows so thick that I weakened fast, and just as I began to sink from exhaustion he reached around with a terrific blow to settle me once for all. I had sunk down half to my knees, with the musket fallen forward, and as he let the sword fall it struck the hammer of the gun instead of the barrel, and with a crack that I could distinguish in all the row and the rumpus my old musket went off with a concussion that threw it clear out of my hands and sent the entire charge square into the face of my foe. Even under the exciting cirrumstances I realized that something out of the ordinary had happened, though I could not tell what it was, and I cast my eyes up as I stumbled forward. The face of the lieutenant was not there. It had been blown off by the discharge of the gun, so close in the fight we were, and we went down together, both covered with blood-his blood. But only one

Instead of entering the house of worship through a small vestibule the visitor steps through the gorgeously carved Gothic portal into a long corridor, on either side of which are offices, lecture rooms, nursery, parlors and similar rooms. Happy at Last 8

Rebecca Stoner was regarded as the typical old maid of Kingstown. People said she had "soured on the world," and, assuredly, judging from the sharp, bitter remarks which often passed her lips, one

would not imagine that she found the world full of sweetness and light. The Kingstown beople would have opened their eyes wide could they have seen the old maid one winter evening, when, having returned from a walk, she threw herself on her couch and shed a flood of

"Can I never forget him or learn to despise the man who spurned my love?" she marmured. "Ab, Dick, Dick! I never will cease to love you!"

Her story was one not ancommon in New England village life. When preparations were going on for her marriage to Richard Waldron, Rebecca's mother, who "R"— said the was a widow, fell ill. Richard Waldron, spell it. who had been waiting a long time for Rebecca, insisted upon the marriage being performed without delay, for, as their new home would be within sight of the Stoner place, Rebecca could still be with her mother and oversee a nurse. But the mother selfishly objected. She knew that Rebecca would not be the same to her after marriage. No one else could H. Brunner. I knew you couldn't read. nurse her as well, and she wouldn't be in 1 called to see you about that poem of their way long. She would go gladly as soon as she was called up higher, etc.

So Rebecca, sick at heart, but not daring, raised as she had been, to resist parental authority, offered Dick his free-

He stormed angrily at first, but, seeing her pain and distress, at last said to her: "Rebecca, you are spoiling two lives, I fear, by your mistaken notion of your duty, but I must submit. But when you free you have only to write to me of their county fairs. They seemed to be utterly regardless of our feelings, too, and before we could say 'scat' they had before we could say 'scat' they had will never love any woman but you and will be faithful to you always."

All might have gone well had it not been that Mrs. Stoner again selfishly interfered. Rebecca and Dick must not write to each other. It would only keep Rebecca's mind in a tumult, and she would not stand in their way long. She was ready to go to heaven at any time, she had never harmed a living creature she would gladly free them of her presence, and more canting talk like this, which did nothing to heal Rebecca's sore heart.

As a matter of fact, the old lady held on to life with a tenacious grasp and lived five more years of helpless invalidism. selfish to the last.

When at last Rebecca was free, she hesitated about recalling Dick, whom she still fondly loved. What if he had married since he had left her? Men were in constant by nature, she argued. Yet the remembrance of Dick's face and his words as he bade her goodby forced her to believe in his constancy. Another doubt assailed her. She had changed during five years' attendance in the sickroom and had lost much of her girlish charm. Perhaps he would not care for

Finally her love conquered, and she wrote him a letter which would have brought him, a happy, eager lover, to her side. But in some unaccountable way the letter was lost in transit. Dick never eceived the message calling him back to Rebecca, and she supposed, as he did not return, that he spurned the love she offered. Naturally she was almost heartbroken, lost her faith in man and never wrote again. He, on his part, receiving no word after the death of Mrs. Stoner. supposed Rebecca's love had cooled and railed at the inconstancy of woman. But he never wrote, even to upbraid her. Years passed, and he finally returned to live in his old home; but, though he and Rebecca passed each other daily, there was never speech between them. They were now middle aged, and each lived

One night Rebecca in a restless mood then, with fast beating heart, ran up to the door and listened. The groan was repeated, and, hesitating no longer, she pushed open the door and entered. Almost on the threshold she stumbled over his prostrate form. In a moment she was on her knees and lifted his head upon her breast.

"Dick, my darling, are you hurt?" she whispered, passionately kissing his closed eyes and rubbing his cold hands. Aroused by her words he struggled to rise, but fell back. But he knew her. "Ah, Rebecca, you have been cruel to me," he murmured. Then, almost under his breath, he

Rebecca heard this statement, but she did not care.
